Technical expertise

iOS Development

Swift · SwiftUI · UIKit · Combine · Objective-C

Architecture

MVC · MVVM · ViewState · Dependency Injection · SPM modularization

APIs & Data

GraphQL · Apollo · REST

Quality

Swift Testing · XCTest · UI/E2E · accessibility · localization

Tools & Backend

Xcode · Git · CI/CD · Django · Python

AI-assisted Engineering

Codex · Claude Code
Implementation, refactoring, test generation & documentation

Education

Universitat Politècnica de València

Technical Engineering in Computer Management
2007 - 2011

Politechnika Krakowska

Computer Science final project
2011 - 2012

Languages

Spanish	Native
English	Full professional
Valencian	Bilingual

PROFILE

iOS engineer with 14 years of experience delivering consumer and client-facing apps. Experienced in modular Swift codebases, SwiftUI/UIKit and GraphQL, with a focus on onboarding, profiles, design systems and automated testing.

EXPERIENCE

XING

Valencia, Spain · May 2020 - November 2026

- Deliver iOS features in a modular Swift codebase, collaborating with product, design and engineering from discovery through code review and release.

Well Described Talents Team (Profile & Onboarding) 2023 - 2026

- Built GraphQL-backed profile and onboarding flows, including Documents, data imports, skills and work eligibility, with accessibility and end-to-end coverage.
- Modernized localization with String(localized:) and migrated unit tests to Swift Testing.

Notifications Team 2024 - 2025

- Improved the notification center and recruiter/contact notifications, including notification limits, tracking and accessibility.

Job Preferences Team 2024

- Developed preference collection flows and job-title logic to support job search and profile preferences.

Content Team 2024

- Built video and premium article experiences, integrating membership access, caching and GraphQL data.

Disco Team 2020 - 2023

- Built social-feed features including stories, comments, sharing and recommendations; improved reusable UI, GraphQL integration and unit/UI coverage.

Armstrong Team 2020 - 2021

- Contributed to the iOS migration across the social feed, native advertising and recommendations, including navigation, analytics and test infrastructure.

Design Team 2020

- Contributed typography, layout behavior, documentation and examples to XING's SwiftUI design system.

treeNovum

Valencia, Spain · January 2019 - May 2020

- Maintained complex iOS apps for the Swiss Ice Hockey League and Coca-Cola, working with Combine and product/engineering stakeholders.

Navilo Mobile S.L.

Valencia, Spain · September 2015 - December 2018

- Delivered apps for international clients, including glucose-monitoring products and a BMW catalogue with complex interfaces and animations.
- Worked with Django/Python backends and AWS services alongside mobile development.

CatalogPlayer

Valencia, Spain · October 2014 - September 2015

- Developed and maintained iOS product features through implementation and delivery.

Imagina group

Valencia, Spain · October 2012 - August 2014

- Built apps from concept to delivery, including Timp and sponsored city guides for more than 20 cities.
